Description

Roberts Pro knee pads are designed specifically for professional floor fitters who spend prolonged periods working on their knees. They offer excellent protection for a wide range of flooring activities.

The soft straps are gentle and prevent pinching, while the wide bands hold the knee pads securely in place as you work. The padded upper band is specially crafted for comfort when using a knee kicker whilst fitting carpets.

- Suitable for all types of flooring installation
- Also ideal for removal work
- Soft, non-restrictive straps
- Wide bands keep the pads securely in place
- Padded upper band for carpet fitting with a knee kicker
- Developed for professional use
